02 Founder's Message

At Medvika, we believe every pharmacy should operate with strong systems, trained people and a clear growth strategy.

Our mission is to help pharmacy owners build efficient, compliant and patient-focused businesses that are ready for long-term success.

We work alongside our clients - not only as consultants, but as trusted growth partners.

**"We do not just advise.
We partner in your
growth journey."**

05 Why Medvika Exists

Many pharmacies face similar challenges that limit their growth and impact patient care.

Lack of structured processes and SOPs

Medvika brings structure, expertise and hands-on support.

Inventory losses and stock-outs

Medvika brings structure, expertise and hands-on support.

Untrained or underutilized staff

Medvika brings structure, expertise and hands-on support.

Low technology adoption

Medvika brings structure, expertise and hands-on support.

Compliance complexities

Medvika brings structure, expertise and hands-on support.

Limited visibility into profitability

Medvika brings structure, expertise and hands-on support.

06 India Pharmacy Opportunity

- Rising healthcare access and consumer expectations
- Growing demand for organized pharmacy operations
- Increasing need for quality, compliance and process control
- Digital tools creating new ways to improve performance

Market implication

Pharmacies that build strong systems now will be better positioned for customer trust, profitability and expansion.

07 Industry Challenges

Inventory

Dead stock, shortages and expiry loss.

Compliance

Documentation and regulatory readiness.

People

Training gaps and inconsistent service quality.

Profitability

Limited visibility into margins and leakages.

Scale

Difficulty standardising multi-store operations.

08 **Service Portfolio**

Pharmacy Setup

Planning, licensing guidance, layout, systems and launch support.

Pharmacy Audit

Operational review, compliance observations and improvement roadmap.

SOP Development

Standard processes for daily pharmacy operations and control.

Recruitment & Training

Role clarity, onboarding, staff capability and service standards.

Inventory Optimisation

Stock control, expiry management, purchasing and reporting discipline.

Business Growth

Sales improvement, customer experience and expansion planning.

Clear actions for pharmacy owners and teams.

13 Medvika Consulting Framework

30 • 60 • 90 Day Implementation Roadmap

First 30 Days

Assessment, gap identification and priority roadmap.

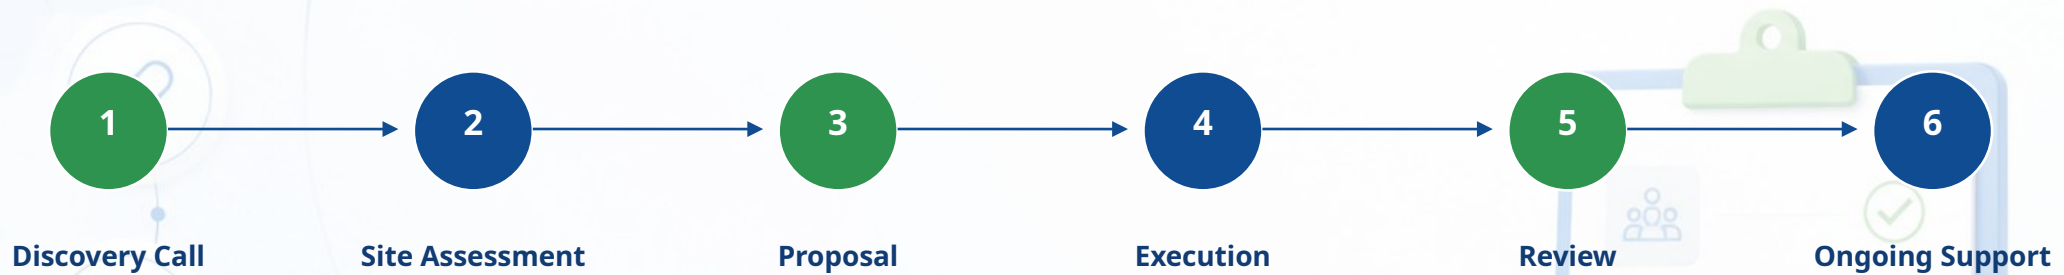

Day 31-60

SOPs, staff training and operational controls.

Day 61-90

Performance review, reporting and growth actions.

15 Client Engagement Lifecycle

Simple enough for small pharmacy owners. Structured enough for chains and hospital pharmacies.

Digital Healthcare Vision

- Consulting-led foundation for real operating problems
- Medicine information platform for public education
- Training academy for pharmacy teams
- Pharmacy ERP and AI-enabled operational tools

**Consulting today. Digital
pharmacy solutions
tomorrow.**

17 **Medicine Information Platform**

Medvika is building a medicine information layer to support education, discovery and better pharmacy data quality.

Search

Brand, generic, composition and manufacturer lookup.

Education

Practical medicine information for users.

Data Quality

Structured records to support future pharmacy tools.

18 Pharmacy ERP & AI Roadmap

Offline-ready ERP

Sales, purchase, returns, stock and basic reports.

Business Intelligence

Profit, GST, expenses and performance reports.

Smart Import

Stock import from CSV, Excel and images.

AI Support

Future guidance for operations, training and analytics.

19 Why Choose Medvika

Pharmacy Focus

Deep focus on pharmacy operations and healthcare consulting.

Practical Support

Guidance that converts into day-to-day implementation.

Customised Approach

Solutions are adapted to the client's business model.

Long-Term Partner

Built to support setup, improvement and scale.

A specialist partner for pharmacies that want better systems, stronger teams and sustainable growth.
